OUR EXTRACURRICULAR ACTIVITIES:

They are a break with the ordinary every day, using a fixed structure but with a criterion of flexibility, to adapt to the changing realities of our students.

They enable moments during which they become **an informal space of relationship among its participants**.

They contain a minimum number of rules and under the watchful eye of teachers, **children learn to express themselves freely**.

They are organized on the basis of the experience of the previous courses, through two groups differentiated according to age and the number of participants.

They are animated cooperatively by the team of teachers, which makes it possible that all can encourage the four activities, according to the weekly needs of each group.

Create a family atmosphere in which children are known, all the teachers know and feel relaxed a different space of the class hours.
